

Figure 1 is a detailed geological map of the study area in the north-eastern part of the Iberian Peninsula. The map shows the distribution of various geological units, including the Iberian Massif, the Iberian Ranges, and the Iberian Massif. Key features include the Iberian Massif, the Iberian Ranges, and the Iberian Massif. The map is oriented with North at the top. A scale bar indicates distances in kilometers (0, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100). A legend identifies various geological units and features, including the Iberian Massif, the Iberian Ranges, and the Iberian Massif. The map is labeled with various geological units and features, including the Iberian Massif, the Iberian Ranges, and the Iberian Massif.
